Spending Cycles

Cycle	Starts	Ends
Cycle 1	January 1st	June 30th
Cycle 2	July 1st	December 31st

Important Notes for All Membership Levels:

Exceeding Minimum Spend Amount During 6-Month Cycle: If a member exceeds their minimum amount required for Cycle 1 (\$350 for a Sports member or \$175 for a House member), then the excess amount spent rolls over into Cycle 2. Please note that excess spent at the end of the calendar year does not roll over into Cycle 1 at the start of a new minimum spending calendar year.

Failing to Meet Minimum Spend Amount During 6-Month Cycle: If a member fails to meet their minimum amount required during a cycle (\$350 for a Sports member or \$175 for a House member), that member is billed for the shortfall on their next billing statement. Please note that excess spent in the subsequent billing cycle will not be credited back to the previous cycle.

Spending by Families: Family accounts are blended and the combined spending amount of both adult members is calculated to satisfy the minimum spending requirement. Each adult member does not need to satisfy his/her requirement individually - combined total controls. Spending by junior members also applies to satisfying the family's overall minimum spend requirement.
